

DJ Christian Mayne - Profile

Christian is an extremely versatile, award winning DJ with nearly 25 years professional experience of everything from weddings to corporate events, from large nightclubs to popstar after parties.

With a history of performing to large crowds and small gatherings, Christian's has held long residencies playing everything from party classics and current hits to 60s, rock n roll, indie, jazz, motown, funk and soul - or all of the above. His effortless ability to entertain crowds across multiple genres lead to him being awarded DJ of the Year in 2004. He is a competent microphone performer, and is happy to provide as much – or as little – microphone work as required by the client.

Christian was the founder of the genre crossing Fat Poppadaddys club nights which have drawn large crowds in venues across the UK since 1998, and went on to establish the equally successful Secret Discotheque club, an unrivalled, riotous night of guilty pleasure from the 70s, 80s, 90s and 00s. For three years, Christian held the Saturday night residency at one of the largest nightclubs in the UK and has performed in literally hundreds of venues in his professional career.

As you would expect, Christian has a huge music library, and is able to source specific items on request. He is courteous, polite and well presented and will happily liase closely with you, to ensure you and your guests have a night to remember.

Christian is very happy to accept a list of songs you would – or definitely wouldn't - want playing in advance, or is equally comfortable just reading the crowd, taking requests and making selections from the thousands of tracks he carries to each gig.
